IMPORTANT *BLUETOOTH*® INFORMATION (WITH NAVIGATION)
FOR OPTIMA VEHICLES

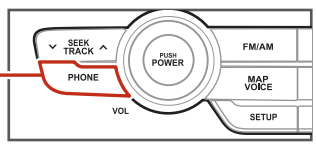
Please keep for easy future reference (See Kia.com/Owners for FAQs, or reference your Digital Navigation System User's Manual for additional information)

PHONE PAIRING QUICK REFERENCE

Vehicle must be safely parked. Vehicles with automatic transmissions must be in "P" or Park. For manual transmissions, make sure the vehicle is in neutral and the parking brake is on. Turn off other *Bluetooth*® devices to pair and connect.

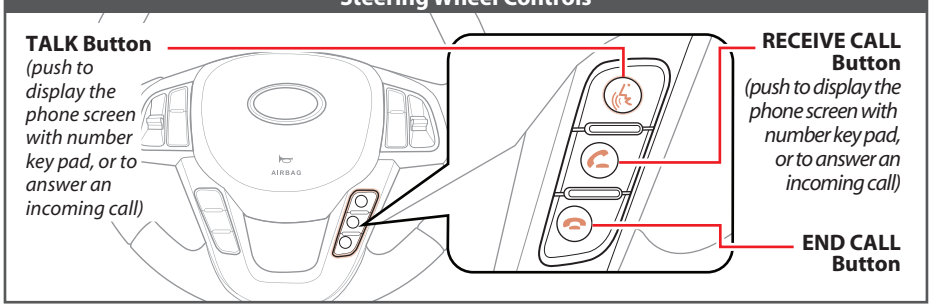
NOTE: Vehicle MUST be in "P" or Park.

User Action
Enable *Bluetooth*® on the phone - Turn *Bluetooth*® on *(Process can vary by phone)*
Press the "PHONE" button below the navigation screen
Select the "Settings" button on the screen
Select the "Pairings" button on the screen
Select the "Add To" button on the screen
Select *Bluetooth*® "Search" on the phone: - Select "search for *Bluetooth*® devices" (or "find", "discovery", "connect", etc.) - Phone will display vehicle name - Select the vehicle name and press OK/enter on the phone
Enter the 4 digit pairing passkey in your phone and press OK (or "send", "enter", "done", etc.) ***Note: Some phones will ask you to accept the connection before proceeding*** ***Note: This may take a few minutes and radio may play during the wait***



NOTE: During the pairing process, some phones may require you to check an option so that accepting the connection request will not be required each time.

Steering Wheel Controls



TALK Button
(push to display the phone screen with number key pad, or to answer an incoming call)
RECEIVE CALL Button
(push to display the phone screen with number key pad, or to answer an incoming call)
END CALL Button
AIRBAG

HOW TO PLACE A CALL

There are two ways to place a call

User Action	
Option 1:	Press the "Receive Call" button (displays the phone screen with number key pad).
Option 2:	Press the "Talk button" (system will beep to indicate it is ready for call placement, will not offer call prompts)

BLUETOOTH® AUDIO ADAPTATION (Driver's voice)

For users with accents, this option improves performance of voice recognition to a particular user's voice.

User Action
Press "Talk" Button
Say, *"Speaker Adaptation"*
Follow on-screen prompts

NOTE: When using Voice Recognition, some phones reverse the names in the contact list from {*First Name, Last Name*} to {Last Name, First Name}.

NOTE: If experiencing difficulty using Voice Recognition to place a call, be sure you are using the actual *full* contact name as entered in your phone book, not a casual or nick-name (i.e., if name was entered as "Robert Smith", say "*Call Robert Smith*" not "*Call Bob Smith*").

NOTE: Phonebook transfer upload time varies by phone model and with number of phonebook entries.

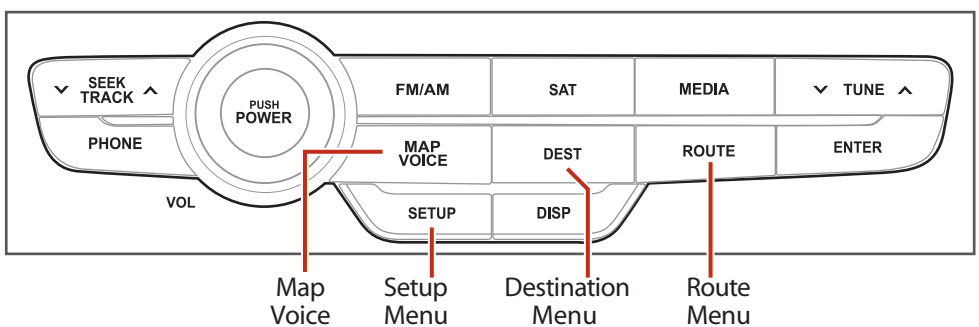
IMPORTANT KIA NAVIGATION INFORMATION

Please keep for easy future reference (See Kia.com/Owners for FAQs, or reference your Digital Navigation System User's Manual for additional information)

NAVIGATION SYSTEM QUICK REFERENCE

At start up, the screen will show a caution screen for you to be aware of the need to pay attention while driving. The first time you use the system, you should select your choice of the 3 different languages to use for the display. It may take a few seconds, but when the letters are dark, press the "Agree" button on the screen.

User Action
The map will display. After two minutes or less, the traffic icon on the left side of the screen will change to a bright yellow color (if in an area with traffic information) indicating that you are getting the traffic data. Pressing on the traffic icon on the screen will show a list of the traffic incidents within 50 miles of your location.
To plan a destination, press the "DEST" button below the navigation screen. Select the correct state for the destination if not already correct. Kia recommends selecting the city next for faster look up of an address. Then select the street information, number first, then the street name (or number).
The system will show on the map the destination based on information provided. If it is correct, press the "Set as Destination" screen button. The system will plan the recommended route to quickly get you to your destination.
The "Alternative Route" screen button will allow you to choose between the following options: Recommended, Minimize Freeway, Shortest, and Minimize Toll Roads.
After selecting your preferred route or the default (recommended) route, press the "Start Guidance" screen button. Guidance begins as soon as you are on a recognized roadway.



Always check the Owner's Manual for complete operating information
